

MILLENNIUM DATABASE REPORT:  
ENVIRONMENTAL IMPACTS OF PRIVATE TRANSPORT  
Bevin Barberich and Jodie Misiak

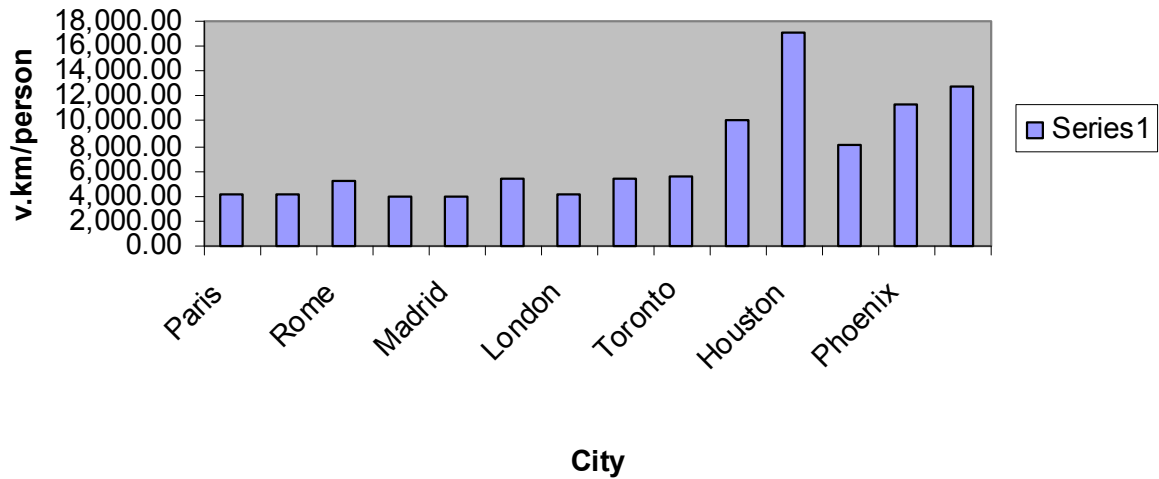

# Key Observations

- Transport Energy Use is directly related to amount of Private Transport
- The Relation of CO Emissions to Transport Energy Use is dependent on wealth of city

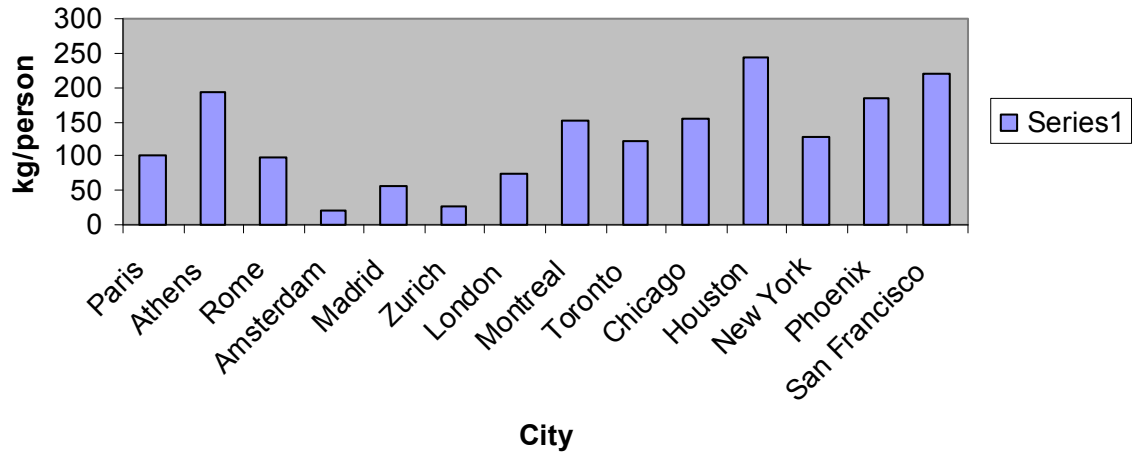

### Total Transport Energy Per Capita

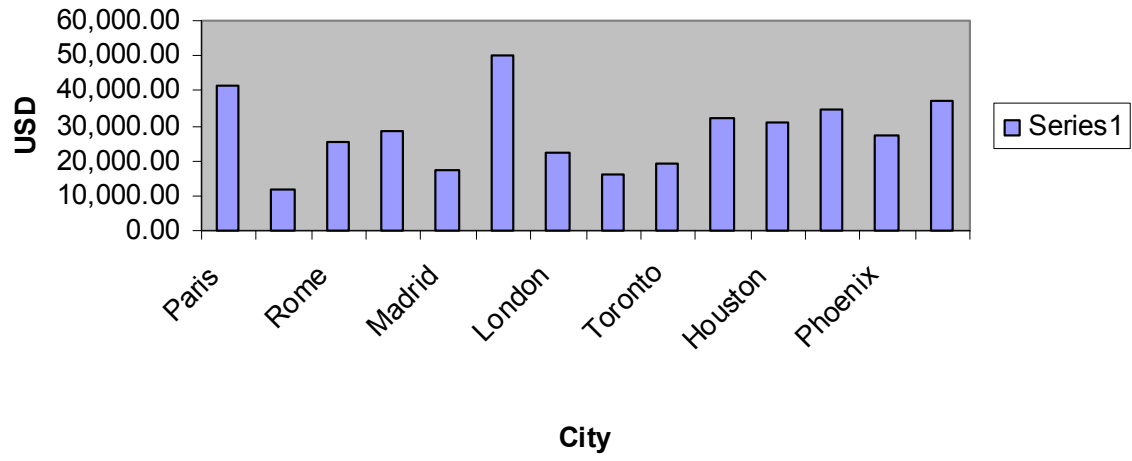

### Total Private Passenger Kilometers Per Capita

### Emissions of CO Per Capita

### Metropolitan Gross Domestic Product Per Capita

# CONCLUSION

Wealthy US and European cities should take lead in investing in pollution control and serving as example for developing cities.
